INNOVA LABS

Advancing Science. Enabling Discovery.

Life Sciences | Laboratory Technologies
Scientific Solutions

WHO WE ARE

Innova Labs is a UAE-based life sciences company that connects laboratories with international manufacturers. We help research teams select reliable laboratory products, technologies and specialized consumables suited to their research goals.

Our vision

Become a trusted and recognized provider of scientific solutions in the Middle East and make innovative laboratory technologies and quality research products more accessible.

Our mission

Empower scientists, researchers and healthcare professionals with reliable laboratory solutions, strong technology partnerships, and responsive, knowledgeable support.

PRODUCT PORTFOLIO

Laboratory solutions

Five portfolios support laboratory work across research workflows.

Molecular Biology & Genomics

DNA and RNA extraction and purification, PCR and qPCR, reagents, enzymes and kits, sample preparation, lab plastics and genomics applications.

Cell Biology & Cell Culture

Media, sera and supplements, cell culture plastics, CO_2 incubators and biosafety cabinets, cell counting, cryopreservation and cell biology research.

Protein Biology & Proteomics

Antibodies and immunoassays, ELISA, protein extraction, Western blotting and electrophoresis, protein quantification and characterization, and proteomics research.

General Laboratory Equipment

Centrifuges, mixers, shakers, pipettes, liquid handling, temperature control, refrigeration and general-purpose instruments.

Biobanking & Sample Management

Sample collection and storage, cryogenic storage, sample preparation and preservation, biobanking consumables and sample management.

WORKING WITH INNOVA LABS

Your Partner in Scientific Progress

INDUSTRIES WE SERVE

Academic & Research Institutions

Healthcare & Clinical Research

Biotechnology & Pharmaceutical Research

Government & Specialized Laboratories

WHY PARTNER WITH US

- Scientific understanding
- Quality-focused solutions
- Customer-centric approach
- International technology partnerships
- Long-term relationships

OUR COMMITMENT

We work with laboratories from initial setup through established research programs, providing dependable support as workflows and needs evolve.
